Pragmatism and Scientific Inquiry

Pere Marquette Gallery, DuBourg Hall, Saint Louis University

221 N. Grand Blvd.

Saint Louis, MO 63103

09:00 AM - 12:45 PM CST

Kent Staley, 314-977-3151

kent.staley@slu.edu

The pragmatist tradition in philosophy has, from its beginnings, placed the conduct of inquiry at the center of its philosophical projects. The process of inquiry consists of actions, but it also aims to produce knowledge. Consequently, pragmatists' treatments of inquiry exemplify the tradition's reluctance to separate in a fundamental way the theoretical from the practical and the epistemic from the pragmatic. In this conference, we aim to bring together scholars drawing upon – and criticizing – this philosophical tradition, to shed light on scientific inquiry while incorporating recent insights into scientific practices and the contexts of scientific inquiry.

Latest Issue: 2024 Volume 25 Issue 4

<https://jcs.snu.ac.kr/jcs/>

Journal of Cognitive Science (<http://j-cs.org>) is an official journal of the International Association for Cognitive Science (IACS, <http://www.cogsci.org.cn/iacs>) and the Institute for Cognitive Science at Seoul National University. It is published quarterly by the Institute for Cognitive Science at Seoul National University, located in Seoul, Korea. The Association currently consists of member societies of different countries such as Australia, China, Japan, Korea, and European Union. However, paper submission by anyone in the whole world is welcome at any time. Its main concern is to showcase research articles of the highest quality and significance within the disciplines of cognitive science, including, but not limited to, philosophy, psychology, linguistics, artificial intelligence, neuroscience, aesthetics, anthropology, and education, insofar as it is deemed to be of interest to those who pursue the study of mind. In particular, we would like to encourage submissions that cross the traditional disciplinary boundaries.

Indexing:

Our articles are indexed in the following databases:

- SCOPUS
- EBSCO
- Google Scholar
- ESCI (Emerging Sources Citation Index, Thomson Reuters)
- KCI (Korea Citation Index)

Aims & Scope:

The Journal of Cognitive Science (JCS) is published quarterly on 31 March, 30 June, 30 September, and 31 December (founded in 2000) as the official journal of International Association for Cognitive Science (IACS) by the Institute for Cognitive Science at Seoul National University. It is a SCOPUS, ESCI, EBSCO, and KCI journal. It aims to publish research articles of the highest quality and significance within the disciplines that form cognitive science, including philosophy, psychology, linguistics, artificial intelligence, neuroscience, anthropology, and education for Interdisciplinary Journal. Submissions that cross traditional disciplinary boundaries in either themes or methods are especially encouraged. AI-associated Cognitive Science will be newly reinforced and papers in this area are encouraged to be submitted.
